

How Do I Add a Content Link to the Home Page?

There are several ways to add a content link to the Home Page. You'll start by using the Add Content Link feature to add a Chat room.

⇒ To add a content link from the Home Page:

1. From the Home Page, click **Add Content Link** to display its menu.

2. Click the tool for the type of item you want to add. The inventory displays the existing items for the tool.
3. Select the specific item you want to link to, and click **Add Selected**. The link is added to the Home Page.

⇒ To add a content link starting from Course Tools, select the item from the tool's inventory and select a location from the *Create Link On* menu.
