

## Vista VPN Instructions

Click Start

Click Control Panel

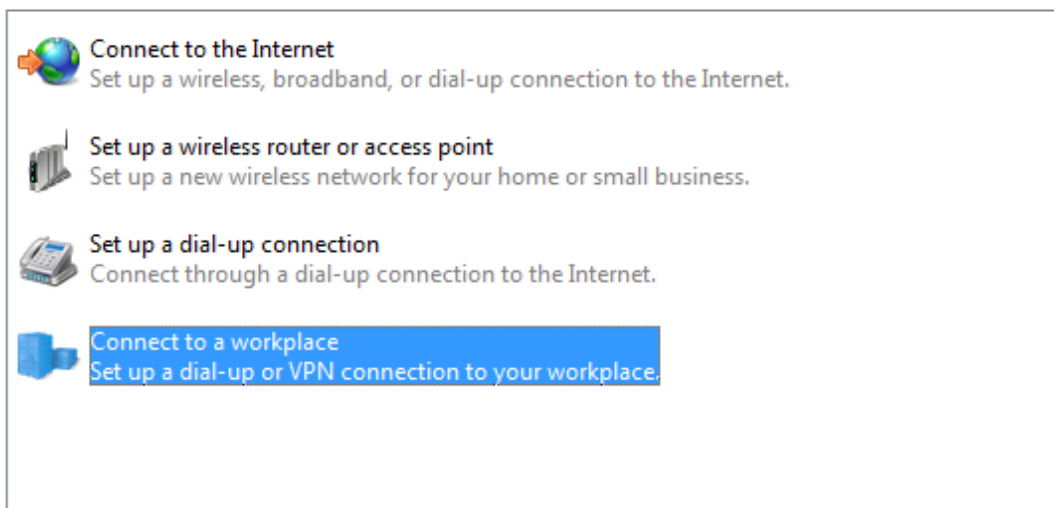

Click 'Classic View' (on the left)

Click on 'Network and Sharing Center'

Click 'Set-up a connection or network' (On the left side)

Choose 'Connect to a workplace'

[Choose a connection option](#)

Click Next

Click Create a new connection

Click next

Choose 'Use My Internet Connection (VPN)'

How do you want to connect?

→ Use my Internet connection (VPN)  
Connect using a virtual private network (VPN) connection through the Internet.

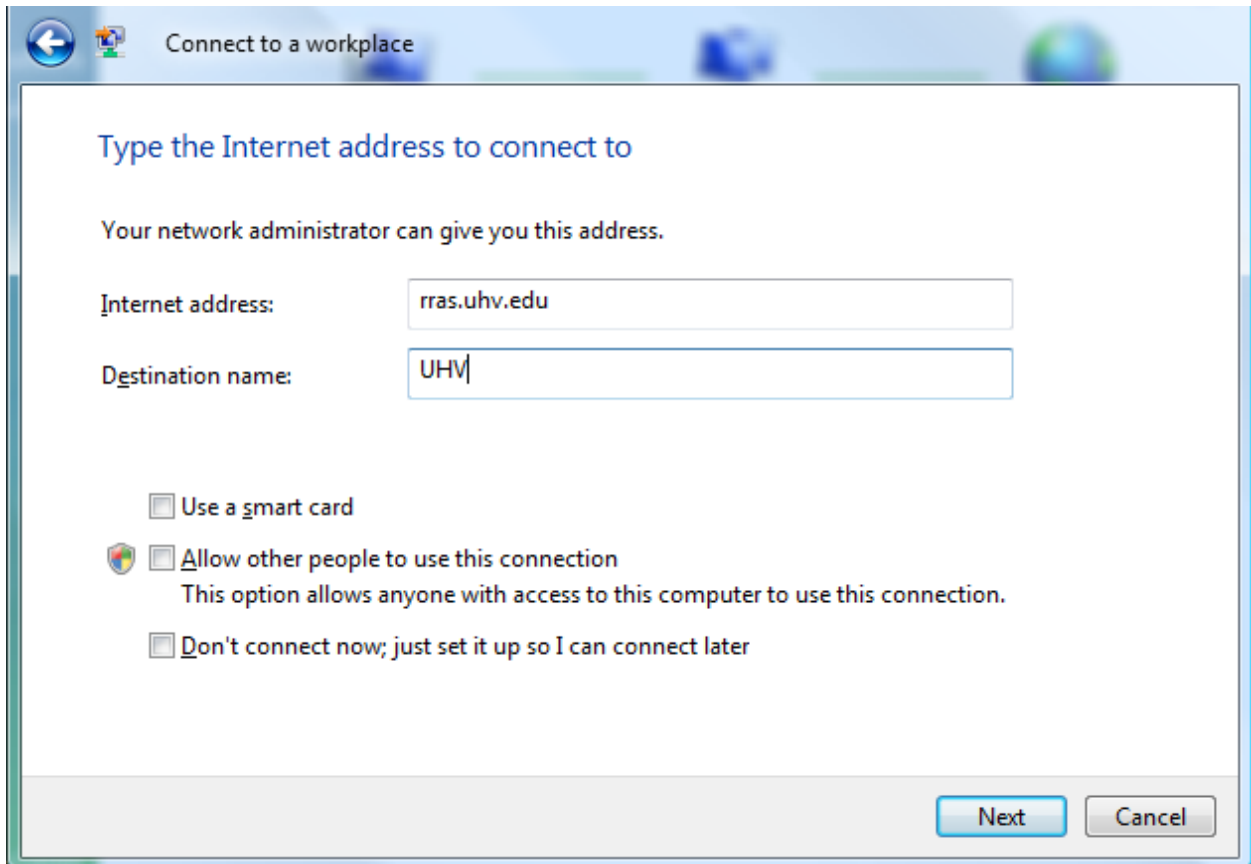

→ Dial directly  
Connect directly to a phone number without going through the Internet.

[What is a VPN connection?](#)

Internet Address – rras.uhv.edu  
Destination Name: UHV  
Do not check any of the boxes below

Click Next

Username: Your username@uhv.edu  
Password: Your logon password  
You do not have to put a domain name

### Type your user name and password

User name:

Password:

Show characters

Remember this password

Domain (optional):

Then click 'connect'

Doing this in Vista doesn't give you an option to create a shortcut to your desktop –  
The way you can connect it is click on the 'Start' button  
Then choose 'connect to' and you should see your VPN connecting.  
Once it is connected, you will see a new network connection appear next to your clock.
