2022-2023 Request to Change the Cost of Attendance

You have notified the Financial Aid Office that you have special circumstances which your current estimated cost of attendance (COA) does not cover. To determine if adjustments can be made to your set cost of attendance, please contact your Financial Aid Specialist before completing the appropriate sections below and return this form with the applicable documentation. Submission of documentation does not guarantee a cost of attendance adjustment will be warranted. You may only be eligible for additional Federal Direct Loans and other grants. We are unable to make changes to your cost of attendance and revise aid for a term that has already ended.

The Fall term request deadline is November 6, 2022 and the Spring term request deadline is April 2, 2023.
